The Kagoshima University Research Center for the Pacific Islands (KURCPI) focuses on the studies on island-zones in Kagoshima, Oceania and its surroundings. An island-zone, consisting of an area that encompasses a group of islands, is a space where networks of people, things and information are formed and interaction among islands take place. An aggregation of island-zones comprises an island-sphere.

The KURCPI aims to promote interdisciplinary studies on islands and islands zones in Kagoshima, Oceania and its surroundings. The results of the studies are combined to promote comprehensive understanding of islands and islands zones and to further the welfare of people in Kagoshima, Oceania and its surroundings. **KURCPI website.** <http://cpi.kagoshima-u.ac.jp/index.html>
